RANDOLPH
CONNECTION

A HOME WIFI SYSTEM THAT WORKS

Home is everything these days. It's an office, a school, a library, a movie theater, a gym, a shopping mall and the backdrop for virtual gatherings with friends and family. However, your home can also be a frustration zone if you don't have the right equipment to deploy your internet signal throughout your home.

Just think about how many devices you are using in your home. There are probably devices that are connected that you weren't aware of; and, those additional devices

can be part of your frustration.

Outdated wireless routers can cause your signal to drop, or even slow down your connection speed which too, can be a big part of your frustration. But you can stop fighting with your wireless network and battling device connectivity by upgrading your router.

Unlike traditional routers which can leave rooms without coverage, the MyHome WI-FI system has adapters that can send your connection in every direction. It is also capable of

handling higher bandwidths which is best for gaming and streaming TV. Our MyHome WI-FI system can increase your internet signal by giving you a more reliable internet connection and the ability for more devices to be connected.

**UPGRADE TODAY AND GET
3 MONTHS FREE!**

*Router does not increase your Internet speed. Restrictions may apply. 100 Mbps or higher requires a MyHome WI-FI Router. Additional fees may apply. Based on structure of home or business. Offer expires 4.30.21.

PROTECT THOSE THAT MATTER MOST

Do you need a home security system but don't know where to start? Experience the best of smart home technology with a Randolph Security system. Our system not only keeps you safe 24/7, it connects your lights and thermostat to your security system. It also gives you the ability to control who has access to your property with integrated door locks and garage doors.

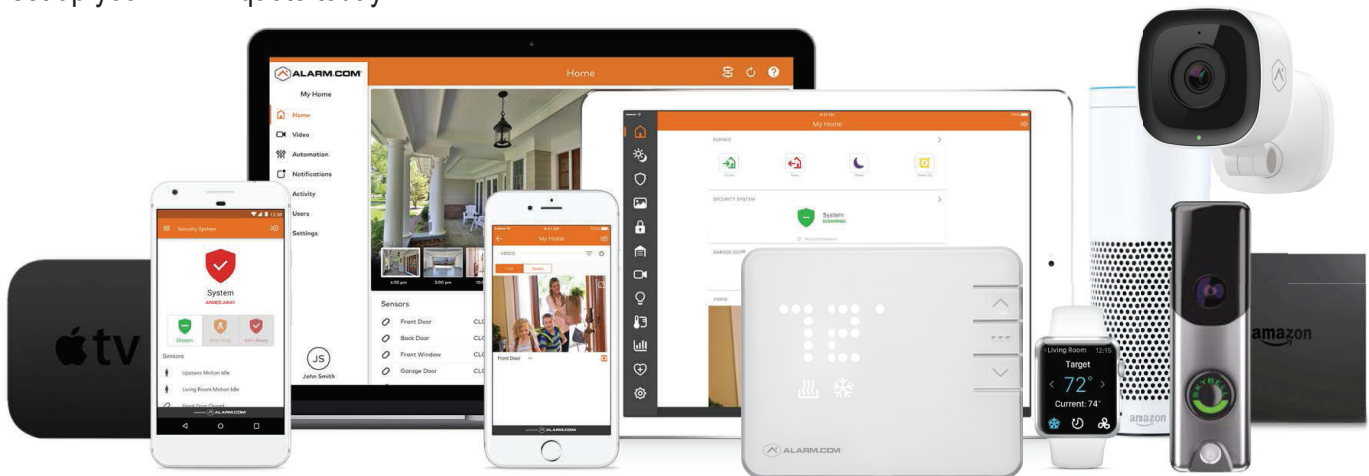

Our security system alerts you in an alarm event it; and it lets you know what's happening on your property at any time. It's easy to set your own alerts and reminders to be notified of any activity you care about, whether your system is armed or not. The easy-to-use app also helps you keep your home protected from anywhere, at anytime.

And that's not all. It has a dedicated, secure cellular connection that provides for safe, reliable, uninterrupted protection. So call to set up your FREE quote today!

Can Hackers Spoof an Email Address?

What would look more authentic than an email that appears to originate from a sender you know? Without any trouble it is easy enough for hackers to impersonate or spoof an email address.

Email spoofing is the fabrication of an email header in the hopes of duping the recipient into thinking the email originated from someone or somewhere other than the intended source.

The ultimate goal of email spoofing is to get recipients to open, and possibly even respond to, a solicitation. Although the spoofed messages are usually just a nuisance requiring little action besides removal, the more malicious varieties can cause significant problems, and sometimes pose a real security threat.

HOW TO SPOT A SPOOFED EMAIL:

1. Check the email address, not just the display name. Hover your mouse over the contact name and look at the actual email address. They should match or be pretty close.
2. Review the subject line. Most spoofing emails contain alarming or aggressive subject lines to try to convince you to follow the links inside.
3. Hover over links. If the email includes links, don't click them. Instead, let your mouse hover over the link. A small box should pop up that shows you the actual url or website that the link will take you to.

**HIGH SCHOOL SENIORS
ELIGIBLE FOR \$1000
SCHOLARSHIPS**

Who can apply?

High School Seniors who live in a household served by Randolph Communications can apply for a \$1000 scholarship. Randolph Communications will award up to eight scholarships, each in the amount of \$1,000. There will be one scholarship awarded in each of our seven member regions and one available in our non-member areas; however, if applicants do not qualify then no scholarship will be awarded in that region. This decision is at the discretion of the scholarship committee according to the scholarship program guidelines. The scholarship committee reserves the right to award that funding to another deserving applicant.

How do I apply?

Scholarship applications for students graduating in 2021 are available at www.rtmc.net/scholarships, or obtained from the school Guidance Counselor. Deadline is April 9, 2021.
